DETAILED ACTION

Claims 1-10 are currently presented in the instant application according to the Applicant's filing on 09/15/2003.

Allowable Subject Matter

1. Claims 1-10 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance.

The closest prior art fails to disclose or fairly suggest:

a) A method for controlling delay including the step of preventing a supplemental output drive from being reduced as a sensed level falls below a threshold, in combination with the remaining claimed limitations, as called for in claim 1;

b) An apparatus for controlling delay including a means for preventing a supplemental output drive from being reduced as a sensed level falls below a threshold, in combination with the remaining claimed limitations, as called for in claim 8; and

c) An apparatus for controlling delay including a feedback prevention path coupled between the output of an at least one relatively low-power output driver transistor and a gate terminal of an NMOS device, in which as a waveform output from a first of a relatively low-power output driver transistor falls, an NMOS device prevents a disabling circuit from disabling an at least one relatively high-power output driver, in combination with the remaining claimed limitations, as called for in claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
